

MARTIN COLLINS
EQUINE SURFACES

MC Activ-Track[®] 

MC Activ-Track
For the smaller professional yard
or owner / rider

This surface was developed in 2005 for smaller yards and 'owner-riders', it has been a great success story. It has proven itself in a wide variety of applications including competition venues, large livery yards, elite dressage yards, and very small indoor schools.

MC Activ-Track contains our unique stabilising CLOPF[®] fibres which provide exceptional stability and energy return. It is the ideal choice for your first waxed surface, as it is 'user-friendly'.
